PATENT AND TRADEMARK OFFICE

37 CFR Part 1

PATENT INTERFERENCE PROCEEDINGS

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Proposed rulemaking.

SUMMARY: The Patent and Trademark Office is proposing to amend five sections and to add one additional section to its rules of practice in patent cases. Each of these sections concerns patent interference proceedings. The purpose of this action is: (1) to clarify and more specifically define the matters which may be raised before the Board of Patent Interferences at final hearing; (2) to broaden the present requirements relating to printed briefs at final hearing; and (3) to specify the manner in which discovery may be used.

DATES: Written comments must be received on or before February 4, 1981.

ADDRESSES: Address written comments to the Commissioner of Patents and Trademarks. Washington, D.C. 20231. All comments received will be available for public inspection in Room 11E10 of Building 3. Crystal Plaza, 2021 Jefferson Davis Highway, Arlington, Virginia.

FOR FURTHER INFORMATION CONTACT: Ian A. Calvert, Chairman, Board of Patent Interferences, by telephone at (703) 557–3625, or by mail marked to his attention and addressed to the Commissioner of Patents and Trademarks, Washington. D.C. 20231.

SUPPLEMENTARY INFORMATION: The reasons for the proposed changes are set out in the following discussion, under three headings which correspond to the purposes stated in the "SUMMARY."

(1) *Matters raised at final hearing.*—The second sentence of present § 1.258(a) contains a lengthy statement concerning consideration of the patentability of a claim. This statement appears to be superfluous and has proven to be extremely confusing even to persons well versed in interference practice. Proposed § 1.258 eliminates this problem by concisely stating that at final hearing the Board of Patent Interferences will consider only priority of invention and matters ancillary thereto.

The other proposed changes in § 1.258 arose as a result of the decision on petition for rehearing in *Peska* v. *Satomura*, 602 F.2d 969, 202 USPQ 726 (CCPA 1979), in which the court noted that § 1.258(b) did not specify certain steps which the Patent and Trademark Office requires to have occurred in order for a motion under § 1.231(a)(4) to be considered at final hearing. In order to correct this deficiency, § 1.258(a) is proposed to be rewritten to specify how matters which are ancillary to priority must have been raised in order to entitle a party to raise them at final hearing. Under the proposed provisions, matters raised in § 1.231 motions which were dismissed as procedurally defective, for example, because they were filed belately, or did not comply with the first sentence of § 1.231(b), may not be raised before the Board of Patent Interferences. However, a matter raised in

a motion which was dismissed solely because it was based on facts sought to be established by affidavits, declarations or evidence outside of official records and printed publications (as provided in § 1.231(a)(1)), or because it would require the taking of testimony (*Cory* v. *Blakey*, 1905 C.D. 116 (Comr. Pats.)), may be raised at final hearing under proposed § 1.258(a)(1)(iii).

The language of proposed § 1.258(a)(2) is taken from present § 1.225(a).

Present paragraph (b) of § 1.258 has been eliminated as redundant, since the question of benefit of a prior application is ancillary to priority, and is therefore covered under paragraph (a). Paragraph (c) of § 1.258 remains unchanged.

In view of the proposed revision of § 1.258, § 1.225(a) is proposed to be considerably simplified by merely referring to § 1.258. The provision for requesting final hearing within 30 days of the decision denying the motion has been dropped as superfluous, since the time for requesting final hearing, if appropriate, is always set by the patent interference examiner. A final sentence requiring a motion to take testimony is proposed to be added, in order to ensure that if a matter (ancillary to priority) raised in a § 1.231 motion is one which must be supported by evidence, the testimony or other evidence (e.g., under 37 CFR 1.282) necessary for consideration of the matter by the Board of Patent Interferences will be taken inter partes, in accordance with 37 CFR 1.271 et seq.

Minor changes are proposed in § 1.231(d) for the purpose of consistency with proposed § 1.258.

None of the proposed changes in §§ 1.225(a), 1.231(d) or 1.258 is intended to alter the existing practice, except for the last sentence of proposed § 1.225(a), which makes mandatory a step which good practice dictates should be taken under present procedure but often is not.

(2) *Printed briefs.*—Under present §§ 1.253 and 1.254, testimony and briefs for final hearing filed in interferences must, if printed, comply with the requirements of § 1.253(e), which have consistently been interpreted as requiring standard typographic printing. Since the Court of Customs and Patent Appeals accepts as "printed" briefs produced by other processes, it is considered that the Patent and Trademark Office should follow suit, in order to spare interference parties the present onerous cost of typographic printing. § 1.253(e) is therefore proposed to be amended to conform it more closely to Rule 5.8(a) of the Court of Customs and Patent Appeals. A sentence, based on Court of Customs and Patent Appeals Rule 5.8(e), is proposed to be added to § 1.254 in order to permit the Board of Patent Interferences to accept, in its discretion, a brief which may not literally comply with the rules, but is otherwise considered satisfactory.

(3) *Use of discovery.*—When § 1.287 was adopted in 1971, no particular provision was made in the rules for the introduction and use as evidence of items obtained through discovery. This has led to some disagreement and confusion on the subject. Compare, for example, the majority and concurring opinions in *Inoue* v. *Lobur*, 195 USPQ 256 (Bd. Pat. Int. 1976).

Proposed new § 1.288 is intended to remedy this situation. Paragraph (a) of the rule is analogous to § 1.282, and permits a party to an interference who has obtained, through discovery related to the interference, admissions in writing in response to written requests for admissions, or written answers to written interrogatories, to introduce the admissions or answers into evidence without taking testimony. The term "discovery" is intended to include discovery conducted voluntarily between the parties or in a court, as well as discovery under § 1.287.

Paragraph (b) of the proposed section specifies that other matter obtained by discovery must be introduced in the same manner as other evidence; for example, documents obtained by discovery must be introduced as indicated in *Clark* v. *Wilke*, 203 USPQ 1101 (Bd. Pat. Int. 1978), and testimony taken in an ancillary proceeding under the control of a U.S. District Court must be introduced in accordance with § 1.283 (Commissioner's Notice of May 2, 1972, 898 O.G. 1500).

Pursuant to 35 USC 6(a), as amended, the Commissioner of Patents and Trademarks proposed to amend Title 37 of the Code of Federal Regulations by amending the §§ 1.225, 1.231, 1.253, 1.254 and 1.258, and by adding a new § 1.288, as shown below. The Patent and Trademark Office has determined that these rule changes have no potential major economic consequences requiring the preparation of a regulatory analysis under Executive Order 12044.

It is proposed to amend 37 CFR, Chapter I, Subchapter A, Part 1, as follows:

1. By revising paragraph (a) of § 1.225 to read as follows:

§ 1.225 *Failure of junior party to file statements or to overcome filing date of senior party.*

(a) If a junior party to an interference fails to file a preliminary statement, or if his statement fails to overcome the effective filing date of another party, judgment on the record will be entered against that junior party unless:

(1) Under the provisions of § 1.258(a), he would be entitled to raise before the Board of Patent Interferences a matter which is ancillary to priority and which, if decided in his favor, would remove the basis for judgment on the record against him, and

(2) Within a time set by the patent interference examiner, not less than 30 days, he requests that final hearing be set to review such matter. If the matter was raised in a motion which was dismissed for one of the reasons specified in § 1.258(a)(1)(iii), the request for final hearing must be accompanied by a motion to take testimony under paragraph (b) of this section.

* * * * *

2. By amending paragraph (d) of § 1.231 as follows (additions are indicated by arrows, deletions by brackets):

§ 1.231 *Motions before the primary examiner.*

* * * * *

(d) All proper motions as specified in paragraph (a) of this section, or of a similar character, will be transmitted to and considered by the primary examiner without oral argument, except that consideration of a motion to dissolve ►on a ground other than no interference in fact◄ will be deferred to final hearing before a Board of Patent Interferences where the motion [urges unpatentability of a count to one or more parties] ►raises a matter◄ which would be reviewable at final hearing under § 1.258(a) and such [unpatentability is urged] ►matter is raised◄ against a patentee or has been ruled upon by the Board of Appeals or by a court in ex parte proceedings. Also consideration of a motion to add or remove the names of one or more inventors may be deferred to final hearing if such motion is filed after the times for taking testimony have been set. Request for reconsideration will not be entertained.

3. By revising paragraph (e) of § 1.253 to read as follows:

§ 1.253 *Copies of the testimony.*

* * * * *

(e) When the copies of the testimony are submitted in printed form, they may be produced by standard typographic printing or by any process capable of producing a clear black permanent image. All printed matter except on covers must appear in at least 11 point type on opaque, unglazed paper. Margins must be justified. Footnotes may not be printed in type smaller than 9 point. The page size shall be either 7⅝ by 10¼ inches (19.4 by 26 cm.) with type matter 4⅛ by 7⅛ inches (10.6 by 18.2 cm.), or 8½ by 11 inches (21.6 by 27.9 cm.) with type matter 6½ by 9½ inches (16.5 by 24.1 cm.). The testimony shall be bound to lie flat when open. Plastic and metal ring-type bindings are not acceptable. Twenty-five additional copies for the United States Court of Customs and Patent Appeals, should appeal be taken, may also be filed; if no appeal be taken, the twenty-five copies will be returned to the party filing the testimony.

* * * * *

4. By adding the following sentence to § 1.254:

§ 1.254 *Briefs at final hearing.*

* * * The board may refuse to accept any brief which has been printed, typewritten, or bound otherwise than in substantial conformity with this section.

5. By revising § 1.258 to read as follows:

§ 1.258 *Matters considered in determining priority.*

(a) In determining priority of invention, the Board of Patent Interferences will consider only priority of invention on the evidence submitted, and matters ancillary thereto. A party shall be entitled to raise a matter which is ancillary to priority only if:

(1) The matter was raised by the party in a motion under § 1.231(a), and:

(i) The motion was transmitted to and decided by the primary examiner; or

(ii) Consideration of the motion was deferred to final hearing; or

(iii) The motion was dismissed as being based on facts sought to be established by affidavits, declarations or evidence outside of official records and printed publications, or as being based on a ground which would require the taking of testimony; or

(2) The matter was raised by the party in opposition to a motion under § 1.231(a)(2), (3), (4) or (5) which was granted over his opposition; or

(3) The party shows good reason why the matter was not raised as specified in paragraphs (a)(1) or (2) of this section.

(b) To prevent manifest injustice the Board of Patent Interferences may in its discretion consider a matter which is ancillary to priority even though it would not otherwise be entitled to consideration under paragraph (a) of this section.

(c) At final hearing between an application and a patent the prior art of record in the patent file may be referred to for the purpose of construing the issue.

6. By adding the following new section:

§ 1.288 *Use of discovery.*

(a) If a party intends to rely upon an admission or upon an answer to an interrogatory, obtained by discovery, the admission or answer may be introduced into evidence by filing, before the closing of the time for taking the testimony of the party (before the time for taking the testimony in chief if such admission or answer is not in rebuttal), a copy of the admission and the request therefor and/or a copy of the interrogatory and its answer, together with a notice of reliance thereon.

(b) A party may not rely upon any other matter obtained by discovery unless it is introduced into evidence pursuant to §§ 1.271 to 1.286.

EXTENSION OF TIME FOR FILING NOTICES OF OPPOSITION

The Patent and Trademark Office has been experiencing difficulties in printing the Trademark Official Gazette. As a result, the issue dates printed on many recent Official Gazettes have not reflected the actual dates on which those issues were mailed. In past weeks, when it became apparent that particular Official Gazettes would not be issued on time, we extended the periods for filing Notices of Opposition on an issue by issue basis. Because Official Gazette printing problems have continued, a new approach to extending the time for opposition has become necessary. Consequently, a Notice of Opposition to registration of a mark appearing in any one of the Official Gazettes dated May 20, 1980 through December 30, 1980 will be considered timely if filed within 44 days after the date on the cover of the Official Gazette in which the mark appears. This notice will be printed in each succeeding issue of the Official Gazette for the period specified unless modified or terminated by a subsequent Official Gazette notice.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See Rules 2.101 to 2.105.

A separate fee of twenty-five dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
